

Waltz for Debbie “He loves anna”

Sweden's fresh sounding electronic pop music in the vein of Dubstar and Saint Etienne. True to the tradition of boy + girl bands, Martin is writing most of the songs while Annica is using her mesmerizing voice to complete their music.

And true to tradition, this is Formula 1 club pop for the dance floors as well as the lounge bars. Catchiness to die for and beats to rock your boat, wherever you are.

“He loves anna” is the first single from the album “Gone and out”.
